### Another Irrigators' Year

Once again has the chances of  
the season turned against the  
farmer.

Following one of the most  
promising springs which has ever  
been experienced in this country,  
with prospects for a bumper year,  
more excellent, three weeks of  
drouth with incessant hope-destroy-  
ing hot winds, have completely  
changed the entire outlook and the  
most our dry-farmers can hope for  
now is seed with perhaps a little  
over.

But in the irrigated districts  
there is a different and a brighter  
tale to tell. Here we find the  
farmer, profiting by his past ex-  
periences with the quickly-changing  
weather conditions, has anticipated  
the dry spell and applied irrigation  
water to the land, with the result  
that in Glen, Cochrane, Lethbride,  
Rosemary and Duchesne, we can find  
crops better than ever before.

Very few farmers were caught  
napping this year and the results  
of intelligently applied irrigation  
are to be seen in the wonderful  
stands of grain and grasses, and  
vegetable products.

The last three years have proven  
to the full that irrigation in this  
district is the only certain method  
of successful farming, and where  
used with intelligence is a positive  
source of prosperity.

It will be interesting to compare  
the yields from the different dis-  
tricts under the ditch for there is  
great rivalry between Glen,  
Cochrane, Rosemary and Duchesne,  
each claiming to have the most  
fertile territory.

Stores close Wednesday at 1 p.m.

### Gem Will Picnic July 18th

Those who have attended the  
Gem Picnics held in previous years  
will be delighted to learn that the  
date has been chosen for the 1919  
event, which is Friday July 18th.

The Committee in charge have  
prepared a splendid program of  
sports and there is little doubt that  
they intend to eclipse all previous  
records for giving a great and  
glorious time.

In addition to the sports and  
races, there will be a baseball  
tournament, with several balloon  
ascensions, and the inevitable pro-  
gram of dances.

Everyone is cordially invited and  
a good time is assured.

### School Promotions

GRADE VII

Passed--Sally Rost 74; Edith  
Hodbourne 70; Allan McCorkindale  
69; Jack Bolton 68; Emily Rush  
60; Walter Brown 57; Blanche

# Crown Prince Has Escaped Parole

Paris.—Frederick William Hohenzollern, the former German Crown Prince, has escaped from Holland and made his way into Germany.

Hints have come from Germany within the past few days that the military caste there would not be averse to bringing about a military situation within the former empire that would embarrass the allies in putting the peace treaty into effect, and it seems not impossible that the move made by the ex-Crown Prince is credited with some such plan.

The former Crown Prince made his way into Holland shortly after the signing of the armistice last November, and was interned there by the Dutch government, taking up his residence on the island of Wieringen, in the Zuider Zee.

Pending details, official discussion of the event and its bearing on German affairs, and the question whether it involves violation of neutrality by Holland, is withheld.

Recent Berlin dispatches printed in the Paris newspapers are recalled in which unnamed but allegedly well-placed persons commented on the sinking of the German fleet in Scapa Flow and the burning of French battle ships, and they were surprised, and declared that other equally startling events might be anticipated.

Since the Scapa Flow incident, Paris press has insistently alluded to the possibility of the former German emperor's escape from Holland, coupled with the question of whether their measures had been taken to prevent such a move.

In military quarters the belief was expressed that the crown prince and Prince Max of Baden are on their way to east Prussia, where the military reactionary element is strong. The opinion is that there may be among the old Junker officer class those who, whatever opinion is held against the former crown prince personally, might try to use him as "the man on horseback."

The presence in Germany at this moment of Frederick William, when the fate of the peace treaty still hangs in the balance, has caused distrust in Paris, and there is considerable speculation regarding the next development in the situation.

**Germany Pagan Railroad Strike**  
Berlin.—Germany is faced by a nation-wide railroad strike for higher wages. At Gortitz station, Berlin, service has been stopped in both directions. The Breslau service has been badly interrupted.

The government is negotiating in an endeavor to halt the strikes, which are largely the outcome of communist propaganda.

**Prohibition Bill Dead**  
Ottawa.—In the prohibition vote all the Saskatchewan members voted for prohibition. The senate won't likely change and the bill seems dead. The full session will be in October.

**Join In Peace River**  
London.—The Marquis of Queensberry has returned to London, having acquired large oil and other interests in the Peace River district.

# Proposed Movement For Labor Reforms

Winnipeg.—A special dispatch to the Free Press from its Ottawa correspondent says:

"Important and far-reaching recommendations, designed to bring about the better relations between labor and capital, and to improve conditions, are incorporated in the report of the industrial relations commission, under Mr. Justice Mathers, who is expected to submit the findings to the government."

The commission will recommend that a conference be held immediately with the provincial authorities, with a view toward bringing about the following reforms:

1. An eight-hour day throughout Canada.
2. A minimum wage for both male and female workers.
3. Collective bargaining, as prescribed by the railway union.

The commission will further recommend that the Dominion government take steps, as soon as possible, for the formation of industrial councils on the Whitley plan, as adopted in England. It will urge that provisions be made for old-age pensions, that a system of unemployment insurance be inaugurated, together with insurance against sickness and disability.

# Urged Exclusion Of Japanese

Washington, District of Columbia.

California Senator Charles McNary, speaking before the house immigration committee, James D. Phelan, democrat, senator from California, declared that, for its own preservation, the time has come when the United States government must put up the bars against all Japanese immigration in the future.

The California senator urged that Japan could not reasonably resent such action by the United States as had been taken by the Tokio government toward China.

Characterizing the Japanese as the "Japs of the East," the senator from California reiterated his charge that a Japanese syndicate had attempted to purchase 800,000 acres of the most fertile land in the San Joaquin Valley in California, and that the transaction was only halted when he complained to the state department.

# Havoc Of Tornado

Cyclone Caused \$3,000,000 Damage at Fergus Falls

Fergus Falls, Minn.—State military authorities in charge of the tornado-torn district said this city had compiled a list of 40 persons who were killed to have died as a result of the cyclone. The officers in charge estimated the total death toll at not less than 60.

Mayor Frankberg estimated that the city's financial loss from Sunday's tornado is not less than \$3,000,000. "A careful survey of the city shows that the early estimate of a million and a half loss is too conservative, and that the actual loss is at least \$3,000,000," said the mayor.

"Forty per cent of the resident population has been slain, about the same proportion of the business district has been demolished."

**War Bonds Used For U.S. Wheat**  
New York.—Julius Hanna, United States wheat director, made public a proclamation by President Wilson granting him full authority to regulate by license the exportation and importation of wheat and wheat flour for the purpose of stabilizing prices. Mr. Hanna said that the regulation he would put into effect were similar to those which have been enforced during the war, and that, hereafter, he has exercised the functions delegated to him.

**Cattle Embargo Is Still On**  
London.—Replying to a despatch urging the removal of the embargo on the importation of Canadian stocker cattle, the president of the board of agriculture admitted no ground for the embargo on account of disease, for the Canadian herds were the healthiest in the world. The board obtained the power of admission they must refrain from using it owing to the present labor difficulties.

**Alena Apply for Passports**  
Ottawa.—Many applications for passports are being received from persons of alien origin in the Dominion. The immigration branch of the department of external affairs. The applicants include not only enemy aliens to whom passports are refused, but men from countries friendly to us, many of whom have been recruited from Italian, Armenian, Macedonian, Polish, Ukrainian, and native of various parts of Africa.

**Shipload of Aliens Gotten From U.S.**  
Washington, D.C.—The transport Martha Washington was lying in the harbor here with about 2,000 German aboard, prepared to sail for Rotterdam, the exact time of departure depending on the arrival of 207 men from Fort Douglas, Arizona.

Her passengers include enemy aliens arrested in all parts of the United States and interned for the period of the war.

**Permanent Cost Of Living Board Soon**  
Commissioner Report in Favor of the Appointment of Permanent Commission

Ottawa.—It is probable that the majority of the cost of living committee of the commons, which has been hearing evidence for some weeks, will report to the house in favor of the appointment of a permanent commission to be called in all probability the Inland Trade Commission. The proposal was discussed at a special meeting of the committee. G. B. Nicholson, chairman of the commons, is in favor of the suggestion.

A plan is to have three members of the committee, the chairman to receive a salary of \$8,000, and the two other commissioners \$7,000 each.

# End Of Winnipeg Strike Rejoicing Over Advent Of Peace

Many of the soldiers took part in the celebration.

Copenhagen.—There was a remarkable spontaneous outbreak of rejoicing when the news that Germany had signed the peace treaty came to the city.

Copenhagen. Many contradictory reports of the proceedings at Wilmersdorf in the past few days. Monday night the people in the streets were cheering and waving flags in the roads.

The crews of the vessels, both in the harbor and in the roads, started cheering and singing, and climbed the masts cheering lustily. Previously the allied warships had been cleared for possible action.

Many of the seamen got shore leave and joined the throngs in the already crowded streets, singing and cheering. Long processions were formed, in which numerous flags of the allied nations were borne aloft. The singing of the Marseillaise and other patriotic songs was to be heard everywhere. French and British sailors marched to the national Danish march, commemorating the war of 1864, and decorated it with flowers.

The populace, wildly cheered the allies, who had won Schleswig again and again.

When darkness fell the warships were lighted up with incandescent bulbs and threw their searchlights into the air. The Copenhagen newspapers printed enthusiastic articles on Germany's decision to sign the peace.

Madrid.—"It was with ineffable joy that I received the news of the certain advent of peace," said King Alphonso. The speech from the balcony at the reopening of the cortes. The king began his address by affirming that the peace treaty, which had been signed in the name of the Spanish people, was a triumph for Spain's friendship for all nations is unchanged, except for the fact that the minister of war has been withdrawn in consequence of events.

**Australia's Method**  
Will Not Allow Any Arrivants For To Unlawful Functions of Government of Commonwealth.

Adelaide.—Outraining the political and industrial situation of the commonwealth, Acting Prime Minister Watt, in a public address, declared that the government will stand for the settlement of labor disputes by law and order under all circumstances rather than by the use of brute force. "The people have expressed their will by the laws of the country," he added, "and they will not allow any force, however arrogant or powerful, to usurp the functions of the government or to challenge the forces of the government."

After reviewing the break which occurred in the labor party over the first conscription issue, and the resultant union of the forces of the National Labor party, led by William Hughes, the present premier, and the more numerous Liberal party, Mr. Watt said:

"The safety of the country rests in the reaffirmation of this union, so that the two may be a solid party in fact as well as in name."

**Facing Expulsion**  
Repelling Unions for Calling Strike Without Sanction

Denver.—Per participation in the general strike in Canada, several hundred members of the Brotherhood of Locomotive Firemen and Engineers were facing expulsion from the organization according to a discussion on the floor of the brotherhood's convention here.

Further, L. J. L. vice-president of the brotherhood, who returned from Canada, where he was delegated to investigate conditions said his findings were "terrible, very serious."

**Army of 40,000 for U.S.**  
Washington.—Without a vote, the senate adopted committee amendments to the army appropriation bill for a year of 400,000 men for the year beginning July 1.

The bill as passed by the house provides for an army of 300,000 and increased the balance to 400,000, the total to be placed at 500,000 officers and men.

# Profiteers And Reds Enemies Of Canada

Strike Leaders Remanded

Trials Over Soldiers and Riots Will Commence Soon

Winnipeg.—William E. Ryan, R. B. Russell, A. A. Heaps, George Armstrong, R. E. Bray and Alderman John Queen, strike leaders arrested a week ago, will be tried in the city police court July 3 on charges of seditious libel and seditious conspiracy. They were remanded by Magistrate Macdonald in special strike court on the request of A. J. Andrews, prosecutor for the Dominion government.

W. A. Fritchard, Sam Blumhagen, Matthew Charlton, Oscar Schepelberg and Moses Altmeyer were given a similar remand.

R. J. Murray, together with R. J. McMurray, will defend the prisoners now in Winnipeg. The men held at St. Mary's hospital will be defended by M. Hyman. A conference of these three attorneys for the defence was held, when it was decided not to ask for a remand.

# Turks Assault Greeks

Strong Forces Driving Them Back in Asia Minor

Paris.—The situation in Asia Minor is serious, according to official dispatches received by Reuters, limited here. These advisers stated that the Turkish forces outnumber the Greeks four to one and threaten to drive them entirely out of Asia Minor. The Greek forces are reported to be in the hands of the Turks, and are supplied with good artillery and plenty of ammunition.

# Reparation For Fleet

May Yet Be Added to Germany's War Bill

Paris.—The cabinet has decided to send two notes to the president of the German peace delegation at Versailles, one regarding the delivery of the German fleet in Poland, in connection with a significant telegram transmitted by the Poles, and the other relative to the sinking of the German fleet in Scapa Flow.

The allies' answer that they will demand reparation for the sinking of the fleet.

# Money For Belgium

Reparations Committee Sanction Priority Payment of \$500,000,000

Paris.—The reparations committee of the peace conference has agreed to prioritize the payment to Belgium of \$500,000,000 from the German indemnities, it was officially announced.

# Mobs Attack Hamburg Factories

Copenhagen.—Serious rioting occurred at Hamburg, when mobs attacked and destroyed factories. The rioters were alleged to be the bodies of dead and said had been found in them. The rioters had been driven to the streets and roughly handled. The war property department was also attacked and its offices were wrecked. The mob tried to destroy troops marching through the streets, and the latter opened fire, a number of persons being killed and wounded.

# Invited to Moscow Jaw

London.—The council passed by resolution which will be presented by local delegates at the union of Soviet municipalities convention, inviting the convention to meet here next year.

# German Government Exhorts Its People

London.—President Ebert, after issuing a proclamation to the German people, according to a wireless message from Berlin, exhorted the conclusion of the peace and urged the first pressing need the bending of all efforts to its fulfillment.

"As far as it is possible to carry it out," says the proclamation, "the treaty must be carried out."

It declares faithful loyalty to those principles with separation from the empire, and promised to intercede in their behalf, "as we would intercede in theirs."

A spokesman by exhorting the people to make the most of work and (shouting) so that they can remember the generosity of the British people," the message concluded.

Winnipeg.—In reply to a request from a number of members of the Great War Veterans' Association and of the general public that the executive committee of the association make a public statement as to its policy with regard to conditions existing on settlement of the British, John C. Newton, vice-president of the Winnipeg branch of the association, points out that owing to the forthcoming Dominion convention to be held in Vancouver, it is impossible for the executive to meet in the near future.

Mr. Newton, in his statement, then mentions the stand taken by the Dominion executive, and as to which legislation has been requested, namely:

- 1.—A minimum wage.
- 2.—Insurance with regard to unemployment, illness and old age.
- 3.—Selling housing for all.
- 4.—Reduction in the cost of living by the elimination of curtailment of essential commodities, by regulations governing cold storage dumps and others.
- 5.—Stringent restrictions with regard to immigration and naturalization.
- 6.—Suitable and equal opportunities for the children of all, rich and poor alike, with regard to all forms of education, with Dominion government financial assistance and scholarships.
- 7.—Support of the general principles of more perfect co-operation in industrial management as laid down by the War Labor Committee in the United Kingdom.
- 8.—Real democratic government by means of proportional representation.

"From the above and other statements recently published," says Mr. Newton, "the Dominion executive obviously believes, and ample confirmation has been obtained from the present strike, that there are two main enemies to peace and prosperity in Canada, one is just as much as the other, and both really of the same type, viz, the profiteers amongst capitalists and the red amongst labor. It is clearly the duty of the Great War Veterans' Association to see that the activities of both are checked."

"The strike has not been an unmitigated evil by any manner of means. It has awakened the people from their apathetic slumbers, it has shown the government that the problems of the industrial class, the profiteers and the high cost of living must be satisfactorily handled immediately, and that if the present government is unable to do so, the next government must take its place; in other words, the present strike has focused public attention upon the Great War Veterans' Association, which was urging on the government for months."

## The Bassano Mail.

Publishers: The Mail Publishing Co., Ltd.  
Managing Editor: - E. G. Allen

Saturday next, July 19th has been officially fixed as a public holiday for the celebration of peace and the victory of the Allies.

Such an occasion would seem to be the most fitting time for Bassano to mark its appreciation in a public manner of the services rendered by all the veterans of Bassano and district.

Few, and please God, none of us may witness another such celebration as this, and it is to be hoped that something worthy of the occasion will be arranged and that whatever is arranged will include a large proportion for the children so that they too may remember the significance of the day.

Very few farmers were caught napping by the first half-holiday, and the stores loyally observed the day. It will only be a matter of a few weeks before our farmers friends will not only remember the day but will also come in to share it with us.

Our Majorville correspondent suggests that it might be prudent to postpone the operation of the hospital owing to crop conditions.

Unfortunately sickness and accident wait for no man, and the necessity for a hospital, which will be fully equipped to take care of the most serious cases equally as good as Calgary has been exposed to frequently of late to warrant any further postponement of operation.

### LOST

## TOWN COUNCIL

The regular meeting of the Council held on Monday last was remarkable for the facility with which the majority of the business was laid over till the next Special meeting.

A delegation from the Natural Resources Department of the C.P.R., with reference to several matters in connection with the freight sheds and other properties east of town was heard; and after discussion the Council decided to call a Special meeting to deal with the questions involved.

A request from the Forestry Department of the C.P.R. for a freer at the station park was also referred to the special meeting.

A request from the Hospital Board for a like concession was also referred to the special meeting.

A letter from the Hospital Board re transfer of Hospital, enclosing cheque for \$1000.00, however, was dealt with by Council, and the collectors were instructed to prepare a transfer immediately.

Letter from J. D. Pratley of July 4th met the same fate as the majority of the communications and will also be discussed at the special meeting.

The Town Engineer was instructed to put down cinder crossings where he deems them necessary, and also to have the road at the Disposal works repaired and erect a suitable gate at the entrance to the cemetery.

Councillor McKee was appointed Deputy-Mayor for the ensuing three months.

The Finance Committee recommended and the meeting approved "That in view of the fact that the town is at present operating on a overdraft and is therefore unable to make payment of the third instalment on contract No. 1719 with the Canadian Allis-Chalmers, Limited, a cheque be tendered to said Company for the interest on the overdraft payable at the end of the current month, and that the Company be assured that every effort will be made to make the overdue payment as soon as the second instalment of the current year's taxes begins to come in."

We greatly regret to record the deaths of Doris Annie, the youngest daughter of Mr. and Mrs. J. H. Stiles and of Margaret Elizabeth, the infant daughter of Mr. and Mrs. Harry Holmes.

The former, who was only thirteen months old, died on Friday, July 12th. The cause of her death was pneumonia, following an attack of whooping cough. The funeral was held on Saturday, the service being conducted by Rev. Glendon.

The latter who was barely one month old, died on Sunday July 14th, and was also the victim of the scourge. The funeral took place on Monday and the service was conducted by the Rev. A. C. Swanson.

The sympathy of the whole town is extended to the sorrowing parents in their great bereavement.

### LOST

One White Horse, 12 yrs. old, small size, can on right side of neck, weight 1400 lbs. Blue Horse, size cut, black on left side of neck, weight 1400 lbs. 9 yrs. old. Bassano, who will give any information desired.  
**H. B. Browne & Co., Auctioneers, Bassano.**

## Buy an Irrigated Farm

From the Canadian Pacific Railway.

Irrigation makes the farmer independent of rainfall, and insures good crops, not occasionally, but EVERY YEAR.

Irrigation makes possible the successful culture of alfalfa, the king of alfalfa, which insures good returns in dairying and mixed farming.

Irrigation means intensive farming and close settlement, with all the advantages of a densely populated agricultural community.

Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experiment, the years that it has been tried having absolutely demonstrated its success wherever intelligently applied.

This is the most liberal offer of irrigated farm land on record.

For full particulars, apply to

**Allan Cameron, General Supt. of Lands**  
Canadian Pacific Railway, Department of Natural Resources  
926 Fifth Street East, Calgary, Alberta.

## DUNLOP TIRES

### —EVERYWHERE

Any Dunlop Traction Tread can be bought in a greater number of garages than any other tire. Same with all the rest of the "Two Hands" Tire family: Dunlop Cord—Traction and Ribbed; Dunlop Regular—Traction, "Special," "Ribbed," "Clipper," "Plain."

Any place that is good enough for you to drop in to in search of a casing, tube or some gasoline, oil or free air, is a good enough place for us to sell Dunlop Tires. In these days when tire service is priceless, it is something to know that Dunlop Distribution is of the most far-reaching character—the most successful "Tire-When-It's-Wanted" co-operation ever achieved in Canada.

**Dunlop Tire & Rubber Goods Co., Limited**

Head Office and Factories: TORONTO  
Branches in the Leading Cities.

Tires for all purposes. Mechanical Rubber Products and General Rubber Goods.

**Masters of the Road**

## HOUSEWIVES

THE PEOPLE'S MARKET LIMITED are endeavoring to co-operate in every possible way with their customers, but co-operation is something which must be entered into by both parties to be successful. It is our desire to supply our customers with what fresh fruit they will require at the smallest possible cost and in a way to supply the best possible quality. Berries of all kinds are quoted at such high prices that by the time they are packed in crates and expressed through to us this year it will bring them too high for canning purposes, but there is a certain amount of the crop which is too ripe to stand shipping when packed, which the packing houses are putting up in large tin cans which can be shipped through by freight later on in the season and sold on a gallon basis. This fruit can be reheated and put into small sealers and kept for future use much more economically than they can be handled by the crate and shipped through by express.

We can also get free fruit by taking them just at the time when the entire crop is in the right stage to be stripped from the trees and have them come through in carload lots and distributed much more economically than if they came through by express during the season when they are simply packing the first fruits to ripen on the trees and filling the small express orders.

If each of our customers will be good enough to advise us as soon as possible how many gallons of each kind of berries they will require for canning and also how many of the regular size crates of the tree fruit, such as Peaches, Plums, Apricots, and so forth, we will have each of our salesmen supplied with a list on which they can note the names of the customers and the requirement of each, so that we can tabulate them and come as near as possible to filling the requirements of all without buying more than can be used by the community served by each one of our markets.

Kindly give this your earliest attention and make a list of what you think your requirements will be and turn it in to our meat-cutter on your first visit to the market, and greatly oblige.

THE PEOPLE'S MARKET LIMITED.

## Majorville

Mr. Nye has gone to Vancouver.

The "Trudeau" have purchased a residence for the teacher.

Picking makatoon berries seems a profitable and favorite pastime.

Tommy's photo at the Bow River on the 15th inst.

Mr. O'Toole's new residence looks well after receiving a coat of paint. Harry Ward, veteran knight of the brush did the work.

The Dawson Minstrels were to play here at an early date, but at present we hardly know their identity.

A "school" district known as the "Larson School" has been opened north of Majorville, and another district known as "Tara Hill" is in course of creation S. E. of Majorville.

Mr. Stephen Gaskin, brother of A. Gaskin, who has been around here looking at some farm property, has purchased a 1/2 section in the township situated. He left for Seabrook, Ontario, for the family.

Mr. and Mrs. O'Toole with their new Melancthon Special left for a motor trip to Missoula, Montana, U.S.A. They expect to be gone for a few weeks.

Miss Myra Scott formerly of the telephone shop, has been home spending a few days with her friends previous to taking a better position with The Bank of Commerce branch at Gleichen. Good stuff Myra.

Among the visitors to Calgary during the week were Mr. and Mrs. Russell Kelly, Mr. Bege and family, Messrs. A. Ditt, Geo. Frontier, Bert Gaskin, Wessley, Larremund and others. They report crowded hotels, advanced prices on restaurants and the fact that the best thing people it seems are left unable to take a joke, to be misunderstood when you mean kindly seems unfortunate, but not ever true, far better to "smile and the world smiles with you. Weep and you weep alone."

That frosted night, I have parted with, and I sing a song of my own.

We are very pleased to welcome home from overseas, the Scott Bros., Frank, Ed. and Thomas who arrived recently, and Victor who came early in April, as also Otto Pearson, Angus Hilder and the lovable "Mike" Walker. We are very pleased to see the boys all returning safely.

The Rev. Darius of Quenston and service here at the school house on the 5th and he will hold service again on the 20th. Mrs. Nye is organist. All are cordially invited to be present.

Mr. Victor Scott is wood inspector. It seems to be the prevalent idea of all farmers to cut down the weeds. Some farmers are busy pulling weeds, while their neighbors don't seem to take the same interest, consequently, the spread of weeds. Let other those delinquents come and make them toe the line vice.

They are ought to know that much, if not, quietly and then the "Hill Act" and see that they observe it.

Election day for the hospital scheme seemed to pass pleasantly. An amusing feature of the day was to see how the ladies crowded the booth, particularly during the closing hour and the interest they manifested. The adverse vote from this district might have well founded objections, considering the diseases from Bassano and the probability of an increase in taxes with mismanagement and a lack of facilities for treating serious cases. Of course, the scheme has many merits, but it might be preferable to build it in advance during present agricultural prospects.

The farmer is very diffident about attending the circus during hot weather supposing he saw the white elephant unfaded safely.

## TENDERS FOR COAL

SEALED TENDERS addressed to the undersigned, and enclosed "Tender for Coal for the Dominion Buildings, Alberta, Manitoba and Saskatchewan," will be received at this office until 12 o'clock noon, Thursday, July 31, 1919, for the supply of coal for the Dominion buildings throughout the Province of Alberta, Manitoba and Saskatchewan.

Quintined specification and form of tender can be obtained at this office and from the Caretakers of the different Dominion buildings.

Tenders will not be considered unless made up on the forms supplied by the Department and in accordance with the conditions set forth therein.

Each tender must be accompanied by an accepted cheque on a chartered bank payable to the order of the Minister of Public Works, equal to 10 per cent. of the amount of the tender. War Loan Bonds of the Dominion will also be accepted as security, or war bonds and cheques if required to make up any odd amount.

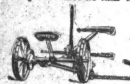

By order,  
H. O. DESROCHERS,  
Secretary,  
Department of Public Works,  
Ottawa, June 27, 1919.

### Electric Starting and Lighting

NO car has a better starting and lighting system than that now available to purchasers of Ford Cars. It is a Ford product, built into the motor—

—a positive starter as reliable as the motor itself;

—a powerful lighting system, uniform under all engine speeds.

On the open models—Touring Cars and Runabouts—it is OPTIONAL EQUIPMENT.

On closed cars—Sedans and Coupes—it is STANDARD EQUIPMENT.

On all models the Ford Standard Magneto also provides ignition independent of the batteries.

See the Ford car with this new equipment.

Ford Runabout Model, Young Boys  
On open models the Electric Starting and Lighting Equipment is free extra.  
Closed Body Sedan \$175. Standard model prices for the Model Starting and Lighting Equipment.  
These prices are for a 24, 26, 28, 30, and do not include the War Tax.

Local Dealer, Roy Smith, Ford Garage
